## Strengthening of visit restrictions

With new coronavirus infectious disease measures

The number of COVID-19 cases in Tokyo continues to increase rapidly now. In order to prevent in-hospital infection, the following visiting restrictions will be changed from July 12, 2021.

About the attendant when visiting the OBGYN outpatient department

**No accompanying persons allowed**

Ward	Visiting hours & Those who can visit
OBGYN Ward	<b><u>Visiting prohibited</u></b>
About attendance of natural delivery	24 hours Husband or partner only Required to bring and wear your own mask
Pediatric Ward	Please ask the pediatric ward staff
NICU • GCU	6:00~22:00 Parents only

- ※Those who come to pick up the patient at the day of discharge can enter the room at the scheduled discharge time, but please cooperate with the stay in the ward for a short time.
- ※Those who will be present at childbirth at LDR cannot leave the LDR except for meals and restrooms.
- ※Entering the operating room is not permitted during Caesarean section. Visits are allowed from 15 minutes before the patient enters the operating room until the time of entering the operating room. Although, staying in the ward is limited to 15 minutes. Post-operative explanation will be given by phone. If the scheduled surgery time has not been decided yet, the patient should contact the partner directly as soon as the time to enter the surgery room is decided. There is a waiting space on the 3rd floor during the operation, but please leave 2 hours after entering the room.
- ※This does not apply to visits requested by the hospital, such as in an emergency.

Requests to all visitors ( patients, visitors, attendants )

Visit the hospital after measuring body temperature at home

**Do not visit the hospital if you have a fever or if you feel unwell** (excluding patients)
